### **Habitha Is A Key Transit Point For The Haifa Pipeline**

Iraq's pipelines run from Mosul to Turkey, from the South to the Persian Gulf, and to the West. Israel has sabotaged all but the Israeli pipeline, leaving them capable of controlling 30% of the world's oil.

The town of [Habitha](#) is a crossroads, and contains a hydro electric [dam](#), and Israel wants total control of the area. The Israelis are working to provoke the Marines into another massacre like Fallujah.

Operation [New Market](#) was the start.

### 8/1/2005.. Fourteen Marines Killed

There were fourteen Marines killed a mile south of [Haditha](#) when their Amphibious Assault Vehicle was hit by a massive explosive. Mossad/Insurgents even filmed a [WMV video](#) of the attack.

Israelis claim that the area is a lawless Sunni Arab region, and that foreign insurgents travel that road from Syria to Baghdad. They insist that the Marines flatten the town.

### Israelis Want A Permanent Base

Marines consider a permanent installation at Haditha, to cut off insurgents entering Iraq, and also to protect the main pumping station and dam. Israelis claim the road from Syria to Baghdad, which they call the "Rat Line", is like the Ho Chi Minh trail. They claim that fighters from Syria, Lebanon, and Jordan infiltrate to Baghdad by way of that road.

### **8/1/2005 ... Six Snipers Killed In Haditha**

The news accounts vary second to second. One story has Marines on rooftops being shot by Sunni snipers, while other [versions](#) have them on patrol in two squads.

## **Marines Realize These Ambushes Require Inside Intelligence**

Investigators are looking hard at [Israeli advisors](#). These attacks are too well-focused at specific groups, such as: ~ Christians in churches, Muslims in mosques, trucks carrying female Marines, an entire sniper squad, hospitals, etc. These precision attacks require detailed knowledge of convoy routes and, employment of sophisticated explosives and advanced timing devices, as well as total mainstream media control to ensure that the desired psychological and physical aftermath of the attacks, become reality.

On 8/3/2005, Bush authorizes ['Operation Quick Strike'](#).

## **What Is Really Happening?**

Americans are sick and tired of the war, but Israel wants America to rush into Syria and Iran. They are starting to overplay their cards with sophisticated attacks that require inside intelligence. The bombings are suspect, and the timing of the attacks as to coinciding with the motives and plans of the Israelis, is too obvious.

Americans are told of two horrendous

ambushes of their troops in some back-water town, when the truth is it is Israel's pipeline to Haifa, and they want it secured.
