Smells Of An Inside Job

On 8/9/2005, a small patrol was driving down a highway when a [car bomb exploded](#), killing five Marines, and injuring six more.

Ask yourself how did the Muslims know to plant this car at this spot? Amazingly, they had people there waiting for the Marines. It was a massive bomb, and the detonator and blast munition was sophisticated enough to focus in and hit a single

Humvee in a 40 mph convoy.

Marines collect bodies at ambush

What Really Happened?

Israel wants Iraq's oil. When a patrol is sent out, an embedded Israeli advisor informs the Mossad of it. They study all the intel of the patrol, and arrange a false-flag bombing or ambush.

Israel wants Iraq's oil. When a patrol was sent out, an embedded Israeli advisor lets the Mossad know. They arrange the transportation and personnel with remote detonators.

Conveniently, a [phony Arab website](#) will always broadcast news of the massacre.

Israel is doing this to provoke the Marines into fighting their battles. Once the Iraqis who can resist occupation are killed off, then Israel wants the US to leave. The Zionists will kill off the Intelligentsia, Academia, and all resisters, the same way they did in 1917 Russia.
